

MISSION GIVES BACK

A COMMUNITY INVOLVEMENT PROGRAM

Making a difference is our mission.

At Mission Health, we are committed to enhancing the lives of those we serve. While making life better for others begins with our patients, residents and their families, it extends to our caring staff and the communities in which we all work, play, and live.

Through **Mission Giving**, our community involvement program, we are able to extend our reach collectively and individually through three initiatives that work in concert to provide social, strategic, and financial support to individuals and organizations that share our goal in fostering strong, healthy people and communities.

Giving Back to **Caregivers**

Caregiving is a journey, and everyone travels a different path. Providing care to someone who is suffering from an illness can be physically and emotionally draining—that's why we created Mission Giving's **Giving Back to Caregivers** Initiative. We offer caregivers helpful resources, strategies, fun activities and support group options that not only encourage discussions about the stresses of caregiving but also celebrate the willing, supportive spirit caregivers share.

Giving Back to **Neighbors**

Many of Mission Health's employees are passionate about donating or volunteering their own time to help others in their respective cities, towns and communities. This dedication to giving back is an admirable quality in the way that it enhances the lives of others. Mission Giving's **Giving Back to Neighbors** Grant Initiative is designed to encourage and recognize Mission Health employees who volunteer their personal time to support a registered 501(c)(3) charity by awarding \$100 grants that, if approved, will be donated to that charity on behalf of an employee.

Giving Back **Together**

Heart
Association®

**"There is power in unity,
there is power in numbers."**
– *Martin Luther King, Jr.*

When it comes to making a difference in the lives of others, the Alzheimer's Association and the American Heart Association are two national health organizations that do very important work on a local, regional, and national level. We created Mission Giving's **Giving Back Together** Initiative to work together as a company championing the efforts of these organizations while creating meaningful and lasting relationships between the organization's chapters, our home office, and the areas in which we operate.
